25X1A 6. [] of OCR dropped by to obtain our approval for the
25X1A Army to make a reference to the Agency in a report to the Porter Hardy
Subcommittee of the House Government Operations Committee concerning
kip-dollar exchanges in Laos. [] was advised that we saw no
need for specific reference to CIA in this matter. He called later and
said the Army had agreed to delete CIA from any references on this.

7. Talked with Fred Mesmer of the Senate Judiciary Immigration
Subcommittee on the subject of "ethnic Germans." Mesmer indicated that
their Subcommittee had a report on this subject which he plans to send us.

8. Talked with Julius Cahn of the Senate Government Operations
Subcommittee on Reorganization and asked him again about the notes and
tapes which Senator Humphrey had made following his visit with Khrushchev
last winter. Mr. Cahn apologized for not getting these materials to us as promised
and said he would see if they were now available.

25X1A Mr. Cahn also said that the Subcommittee had just about completed
its draft of materials of Soviet medical advances. He said that he would
appreciate the views of [] (OSI) on these materials when they are
completed. He will contact us at that time.
